Three dimensional	A solid figure or an object or shape that has three dimensions length, width and height
Depth focus	The distance between the nearest and furthest elements in a scene that appear to be clear in an image
Horizontal	A line that runs across the paper or canvas that usually represents the viewer's eye level
Vertical	A straight up and down line that is without major slants
Off-centre	Not exactly in the centre of something
Position	The arrangement of the body or object

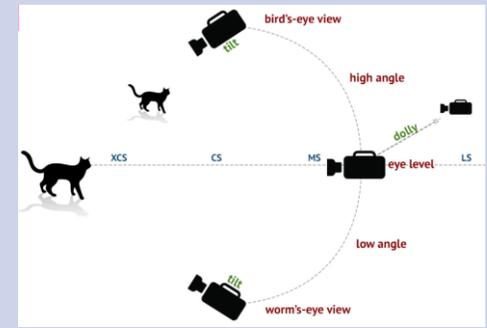

Key knowledge – Art Techniques

Worm's-eye view - A view as seen from below

Key knowledge – Art Techniques

The **position** of the camera to the **subject** determines the **point of view**. Photographers therefore change the angle of the camera to create different **points of view** to give the shot a different feeling.

Key knowledge – Art Techniques

Leading lines can draw a viewer's attention along the paths created in the image. Sometimes leading lines can lead your eye out of the frame completely.
