Key knowledge – What makes land an island?

An island is an area of land surrounded completely by water. It may be in a river, a lake or the sea. Islands can be different shapes and sizes.

Some islands are large, like Britain, others are small and you could easily walk around them.

The island of Great Britain

Key knowledge – What are the Galapagos Islands?

The Galapagos islands are a national park that is looked after by the people who live there.

There are human settlements or villages on the coast, as well as housing, airports, hotels and supermarkets.
