Key knowledge – What does an architect do?

An architect designs houses. They need to make sure that the rooms they design will fit all the furniture. This is why they draw beds into the bedroom. If it was too small for a bed then they would need to make the room bigger.

Key knowledge – What is the difference between physical and human features?

Physical features is something that is made by the earth itself.

Human features are things created by humans.

Key knowledge – aerial view
