Key knowledge – What are the age restrictions on social media accounts?

Key knowledge – What is coding?

Coding is a set of instructions called an algorithm that is followed to achieve an outcome. **Coding** makes computers work! Computers are involved in our every day lives such as: microwaves and mobile phones.

Key knowledge – What is an event in computing programming?

In programming, an event is an action that occurs as a result of the user or another source, such as a mouse click. An event handler is a routine that deals with the event, allowing a programmer to write code that will be executed when the event occurs.

when click

when hit an obstacle

when hit the ground

when pass obstacle
